Hi Mary/Don:

Attached are some background materials in advance of our call tomorrow with Teresa Marks. I'm sending a file with a brief summary of 4 issues: 1) EPA's Oversight of the CA Class II UIC Program; 2) California's SB4 legislation regulating hydraulic fracturing; 3) the Monterey Shale; and 4) Discharges From Oil and Gas Platforms to Federal Waters Off Southern California. Also attached is a recent letter EPA sent to CA State agencies regarding our oversight of their Class II UIC program.

Please let me know if you have any questions about the material.

Thanks,

David
